

HAMMONIA Reederei is an international manager and project developer in the maritime sector. Here, long-standing tradition meets modern ship management.

Our clients are primarily financial investors, liner shipping companies, chartering companies and a listed stock corporation. Our services include technical management, crew management, newbuilding supervision and post fixture. Our approximately 70 employees currently look after 45 seagoing vessels, consisting of container ships, multipurpose freighters and tankers.

**We are looking to strengthen our team at the earliest possible date**

**a**

**Working student (m/f/d)**  
**In the department of our technical inspection**  
**on a basis of 538 EUR (Minijob) - or on a basis of Midijob**

The amount of time required is 10-20 hours per week by arrangement. The working hours can be arranged flexibly and individually.

**or a**

**Trainee (m/f/d)**  
**as part of a compulsory internship**  
**for 40 hours a week**

The scope of duties includes the following activities:

- Documentation and maintenance of technical documents, manuals of vessels and marine equipment
- Ensuring that all technical documentation is up to date and complies with regulations and standards
- Supporting communication in writing and sending notices, reports between the Technical Superintendent and various stakeholders, such as sea personnel, suppliers and internal departments within the company
- Work/communicate closely with technical teams and senior engineers on board to jointly develop solutions to risks arising during the operation of the vessel

- Evaluate/analyze technical data, performance reports and maintenance records to identify development trends or potential weaknesses
- Assisting in the preparation of reports for the Technical Superintendent based on data analysis
- Supporting monitoring/control of budgets for ongoing technical ship operations
- Support with technical projects, refits or installations

You will receive intensive on-the-job training and ongoing support from contacts in the department.

Qualification required:

- Quick apprehension, proactive thinking and independent action
- Ability to work under pressure
